TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Hudson, in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Hudson, on Tuesday, the 11th day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.
3. To choose Delegates to the Constitutional Convention.
4. To see if the Town will vote to accept State Aid Construction of Roads, and raise and appropriate money for the same.
5. To see if the Town will vote to raise and appropriate the sum of \$3,000.00, as the Town's share of the Special State Aid Construction of the Litchfield Road.
6. To see what sum of money the Town will vote to raise and appropriate for the maintenance and improvement of Town Roads.

7. To see if the Town will vote to raise and appropriate the sum of \$1500.00, or such sum as may be necessary for the improvement of the Highway from Benson's Corner, (so called) East on the old Haverhill Road. (By Petition)

8. To see if the Town will vote to raise and appropriate the sum of \$3,500.00 or any part thereof, for State Aid Maintenance of Roads.

9. To see if the Town will vote to raise and appropriate the sum of \$2,250.00 or any part thereof for trunk line Maintenance of Roads.

10. To see what sum of money the Town will vote to raise and appropriate for the maintenance of the Fire Department.

11. To see what sum of money the Town will vote to raise and appropriate for the maintenance of the Police Department.

12. To see what sum of money the Town will vote to raise and appropriate for the observance of Memorial Day.

13. To see if the Town will vote to authorize the Selectmen to pledge the credit of the Town in anticipation of Taxes.

14. To see if the Town will vote to raise and appropriate the sum of \$200.00 to be expended by the State Forestry Department in the control of the White Pine Blister Rust.

15. To see if the Town will vote to accept numerous bequests as Trust Funds, the income to be used for the perpetual care of the various cemetery lots.

16. To see if the Town will vote to arrange for the collection of garbage, and raise and appropriate money for the same, or take any action in relation thereto.

17. To see if the Town will vote to discontinue the Highway on the Eayrs Pond Road between a point approximately one hundred feet North of Eayrs Mill Bridge, to a junction of the new State Aid Road East of Bridge.

Given under our hands and seal, this 22nd day of February, in the year of our Lord nineteen hundred and Thirty.

VERNON S. BROWN,

OTIS R. CONNELL,

JOHN A. ROBINSON,

Selectmen of Hudson, N. H.

A true copy of Warrant—Attest:

THIRTY-SEVENTH
ANNUAL REPORT
OF THE
Trustees, Treasurer and Librarian
OF THE
PUBLIC LIBRARY
FOR THE YEAR ENDING
January 31, 1930

BOARD OF TRUSTEES

ELIZA B. LESLIE,	Term Expires March, 1930
GEORGE F. BLOOD,	Term Expires March, 1931
HENRY O. SMITH,	Term Expires March, 1932
HALGA H. DURIVAGE. Librarian	

Hill's Memorial Library

The report of the librarian shows that the facilities offered the public are largely availed of, so far as the book circulation is concerned. It does not, however, show the very marked increase in the use of the library as a reading room, particularly by the young people. This is, apparently, largely due to the fact that so many attractive magazines are now regularly to be found on our tables. As these are obtained, almost entirely, from the income of the fund so generously provided by the late Dr. Alfred K. Hills, we feel that it is well once more to express our appreciation of the wise and kindly forethought of the donor.

ELIZA B. LESLIE,
GEORGE F. BLOOD,
HENRY O. SMITH,

Library Trustees.

LIBRARIAN'S REPORT

Term Expires March 1932

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Hudson qualified to vote in district affairs :

You are hereby notified to meet at the Webster School in said district on the 15th day of March 1930, at 2.20 o'clock in the afternoon, to act upon the following subjects :

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To see what sum of money the district will vote to raise for the building, repairing, or furnishing school houses, or to in any way keep in repair or improve the school property of the district.

Given under our hands at said Hudson this 20th day of February, 1930.

HENRY O. SMITH,
KARL E. MERRILL,
HERBERT W. CANFIELD,
School Board.

A true copy of Warrant — Attest:

HENRY O. SMITH,
KARL E. MERRILL,
HERBERT W. CANFIELD,
School Board.

Report of the School Board

To the Citizens of the District :

The increasing number of children in the lower grades of the Webster School rendered the opening of an additional room at the beginning of the school year highly advisable.

Your committee deemed itself fortunate in that it was able to secure from the district of Peterboro a portable school house which had been in use there for a few years and had proved to be very satisfactory.

The report of the superintendent will show you how that building has been utilized.

The housing situation during the next school year will probably be fairly satisfactory **unless** the district should see fit to establish a kindergarten or unless some unforeseen contingency should arise.

Your committee, however, believes that in September, 1931, additional accomodations will be needed, and that steps should be taken by the district, at the annual meeting this year, to provide for this need.

It is difficult at the time this report is being written to make a definite recommendation.

If the city of Nashua adopts the so called 6-3-3 system of grades it may seem advisable for Hudson to provide instruction for its children through the first nine grades. This would necessitate the construction of a building different in type, and in a different location, from that needed for the housing of the lower grades alone.

It may well be that this problem may be clarified before the date of our annual school meeting.

Very extensive repairs were promptly made at the Webster building, following the fire, involving practically an entire new

roof on the older portion of the structure and the installation of steel ceilings in all the school rooms and halls. The chimney was overhauled and lined with heavy tiling thus diminishing the fire hazard. As a net result, the building is now in better condition than ever before and, aside from an external coat of paint, should require few repairs for a long period.

Your attention is called to the reports of the Superintendent and school nurse. Considerable work has been done during the last ten years in promoting the health and improving the physical condition of our school children. Much yet remains to be done and unremitting effort, constant vigilance, and conscientious follow-up work will always be necessary if we are to do the things which ought to be done in carrying through an adequate health program. We suggest and strongly recommend that parents have their children tested as to their susceptibility to the contagion of diphtheria and immunized, when it is indicated.

We submit the following estimate of expenditures for the year 1930-31:

Minimum tax of \$3.50 per \$1000.,	\$ 7,658.56
Additional sum required for the support of schools,	18,347.44
Excess salary of Superintendent,	330.00
High School tuition,	9,000.00
Per capita tax,	1,206.00
	\$36,542.00
Contribution of State,	6,000.00
Amount to be raised by Dist.,	\$30,542.00

SUPERINTENDENT'S REPORT

To the School Board of Hudson.

Gentlemen:

Please accept herewith my eleventh annual report as super-

intendent of your schools. I also invite your attention to the report, which is attached, from your school nurse.

Membership

In anticipation of a congested condition in grades 1 and 11 in the Webster School when it should open in September, you procured during the summer a portable school building. Although this structure has not furnished quite the same conveniencies as does the Webster School, yet it has served its purpose much better than could possibly any room made available by rental. As a makeshift until another school building shall be ready for occupancy, this portable building has been a successful expedient.

In my report of last year I gave 468 as the membership of your schools at that time. The average membership for the year fell to 453. The membership of your schools on January 6 of this year was as follows: Webster School, 356; Center School, 58; No. 1, 23; No. 9, 20; total 457. This number probably represents about what the average membership will be for the school year. It is 4 more than that of last year, and the enumerator's report indicates a large entering class for next September. Yet, unless certain exigencies come to pass, it is possible that your pupils might be housed next year in the same manner that they are taken care of at the present time, if that is desirable.

It is possible that one or more of the following emergencies may arise. Nashua is seriously contemplating adopting the 6-3-3 form of organization of its school system. If such a step should be taken by Nashua, it would probably postpone for a time, at least, any move to debar Hudson pupils from the Nashua High School. It would, however, make it extremely desirable if not incumbent on us to add a third year to our junior high. It would be a hardship for Hudson pupils to have to overcome the difficulties arising from a change in the junior school before encountering the break between the junior and senior schools. Even now the accommodations in our junior high are insufficient.

We have about one hundred pupils attending private elementary schools. If for any reason a considerable number of these should wish to enter the Webster School, they could not be accommodated.

There can be no question that there are decided advantages in giving children a kindergarten training before they enter grade 1. Even if Hudson should feel that it could afford the added expense of such a school, it has not at the present time conveniences for such an undertaking either in its publicly owned or its rented buildings.

In event of any one of these three contingencies becoming a reality, additional housing accommodations would have to be secured and this would be difficult if not impossible without another publicly owned building.

Teaching Force

You have now in your teaching force 15 regular and one special teacher. These had been in your service on September 9, as follows: 1 for 27 years, 2 for 13 years, 1 for 8 years, 2 for 7 years, 4 for 4 years, 1 for 3 years, 1 for 2 years, 1 for 1 year, and 3 were serving you for the first time. This is an average tenure for your entire corps of over 6 years. The average teaching experience of your teachers at the same date was 7.2 years. Ten are graduates from New England normal schools, and 4 have had an equal or nearly equal term of training. Eleven hold permanent certificates, 3 have licenses which will entitle them to permanent certificates next June, and one a permit. In training and experience your teaching force compares well with that of many a larger school system.

Matters of Instruction

The function of the public schools is to instruct the children

in such knowledge, and to train them in such habits of thought and action as shall cause them to become as efficient citizens, politically, economically, and socially as their natural endowments will permit. The classification of the instruction into the various branches of mathematics, language, history, science, etc. with the grading resulting from the setting up of standards of achievement in these branches, frequently obscure the ultimate end sought. It is my conviction that we all too frequently miss the mark because of our slavish adherence to these arbitrary standards. While efficient citizenship should be our aim, the end is lost sight of in an endeavor to reach fixed academic goals. We attempt to turn out a uniform symmetrical product. Any lack of conformity to this pattern in all respects prevent the progress of the individual in the school system. To be specific, a child failing to make the standard in mathematics is not promoted to the next grade at the end of the year. As a result, for the next twelve months he must mark time in the other subjects while he endeavors to round out in this one respect. One failure weakens his confidence in self, making failure in other lines more probable, and in extreme cases resulting in an inferiority complex. It is a well known fact that Edison could not master arithmetic. Had he attended a modern public school he would doubtless have been a decided misfit. Instructed by a wise mother, he has become one of the world's benefactors. In order to develop rather than stunt our "Edisons" it is necessary to break down the inflexibility of our system so that children in the same phases of development may be instructed and trained together.

To this end the reorganization of our school system from the old 8-4 to either the 6-2-4 or the 6-3-3 plan was effected. The present drive for the substitution of the problem-project and contract methods in the place of the older types, has the same end in view.

We are endeavoring in this union to bring about this change by placing in the class rooms for individual use such problem-project and contract materials as seemed adaptable and our limited

means would permit, and by fostering in the teachers an interest in the study and practice of these methods.

In order to train as well as instruct the pupils in the duties of good citizenship we are fostering an interest in pupil participation in the school government. We find this particularly practical in the executive and judicial functions. Wherever the teacher has tried the experiment, we have had only happy experiences.

In General

Our elementary school system from natural development and legal requirement has become the public instrument for universal compulsory instruction of the children. We must cause them to attend the schools from six to eight years and require them, if possible, to attain certain standards of achievement. Neither the matter of attendance or application is an option for either child or parent but is a legal requirement. Custom requires that we report to the parents at certain intervals the results of our efforts. We do this with cards on which we record, as best we can, an estimate of the success of our labors with their children. Errors will occur from time to time as long as our teachers are subject to human imperfections. They should be expected and tolerated.

As a whole, your school system is efficiently performing its function. With three new teachers and a change in the principalship of the Webster School, there were naturally a few matters both in instruction and administration which required considerable attention.

Thanking the board for the many consideration shown me during the past year, this report is

Respectfully submitted,

LOUIS DEWITT RECORD,

Supt. of Schools, Union No. 27

February 1, 1930.

REPORT OF THE SHOOOL NURSE

To the School Board of Hudson

I tender my report as school nurse for the past year.

During the past year the number of children receiving dental care has increased. We still have a large number needing at-

tention as every year brings new children. Through a small sum left a few years ago by a graduating class of the Webster school for dental work, I have been able to secure dental care for quite a number of children who could not have had the attention otherwise. The dentists in Nashua where I have taken the children have been very kind and we have had much work done considering the small amount of our dental fund. The parents also appreciate this service and it stimulates their interest in the care of their children's teeth.

We still have a large number of underweight children, but, in a good many cases their general condition is improving. The hot lunches at noon and the milk at recess at the Webster School still continue, and certainly are a great help for the children. The mothers appreciate the hot lunch for their children who otherwise would have to eat a cold lunch. There are an average between sixty and seventy hot lunches served every school day. At the Center School the children have hot cocoa or a soup served every day at the noon hour and nearly every child takes advantage of this opportunity to have something hot with their lunch. At the Webster school and the class in the room at Odd Fellows Hall they average about seventy-five bottles of milk each day. Some of this milk is brought from home and the rest is bought at school. At a tag day in the fall, money was realized for free milk. Not nearly as much money as we could use was realized. We pick out the children badly in need of milk but, who are otherwise unable to have it; they are divided into groups, one group is given milk one month and another the next month throughout the school year.

We have been very free from skin diseases and pediculosis this past year. During the fall term the first three grades at the Webster school were broken by whooping cough. At the Center school in the spring term, there were a few cases of measles, during the fall term two cases of scarlet fever and a few cases of chicken-pox. Considering the large number of children in the schools the number of contagious diseases were small.

As a whole the children show an improvement and we can see the results of the work of the years before, the improvement in general health, cleanliness, and attendance at school.

More parents are realizing each year that their child can not make the grade in school if she or he is not physically well and as they are anxious for them to make the grade in school each year they see the need of having all physical defects that are possible corrected.

I am adding a list of defects found and also the number that have had treatment or shown improvement.

	<i>Defects found</i>	<i>Treated or improved</i>
Number Examined, 420		
7% or more underweight,	40	19
Defective teeth,	88	63
Defective tonsils,	60	30
Defective vision,	21	15
Defective breathing,	30	17
Enlarged glands,	25	16
Orthopedic defects	3	3
Skin disease,	8	8
Pediculosis,	12	12
Unvaccinated without certificate,	2	1
Unvaccinated with certificate,	1	
Number home calls,	289	
No. dressings done at home and school, 50		

Respectfully submitted,

JOSIE M. MERRILL, R. N.

School Nurse.
